# 2013 New Art Pieces

## STATEMANT 「 WET PAINT 」 by MAGO

Attention please 「 WET PAINT 」 My art piece is any so wet. What do you think it is? PLEASE YOU GUESS.

"I chose the theme "Wet Paint" for my work because while on the subway, I dirtied my hand on a wet handrail and was colored bright red. I grew furious and depressed when I saw my hand. I don't want to touch wet handrails anymore! I look out for WET PAINT signs all the time now. New Yorkers are afraid of touching wet paint in the subways, so they look for WET PAINT signs to protect themselves and their clothing. I want to see if people react defensively when my work also had WET PAINT signs on it. The irony is that my artwork is actually dry."
